INDEX TO VOLUME XXII.

GENERAL ALPHABETICAL INDEX.

NOTE,—Titles from Digest are indicated by (Digest); if merely references by (Digest, Ref.).

A

Absolute temperature, Dimensions of (Digest Ref.), 427
Accumulator and underground conduit electric railways, Report on, 137
— Barium (Digest Ref.), 136
— cars in Paris (Digest), 498
— chloride, Electric Storage Battery Co., 324, 467
— Chloride of lead (Digest), 428
— comparisons (Pumpelly and Sorley), 29
— decisions, 77, 87, 263
— Ford & Washburn, Test of, 50
— Franklin Electric Co., 349
— Gadot and Pisca (Digest), 416
— Henzel (Digest), 449
— in commercial work, 6
— Lead dust (Digest), 381
— Peyrusson (Digest), 13
— plant, Franklin Electric Co., 165
— Plates, Forming (Digest), 397
— Pollak (Digest), 273
— regulators (Digest), 12, 44, 85, 273
— station at Mende (Digest), 182
— station, Secondary (Digest), 12
— stations, Gas engine (Digest), 272, 361, 481
— telegraph plant (R. Macrae), 500
— tests (Digest), 66
— Theory of the (Digest), 13, 362, 397, 466
— Tommasi (Digest), 13, 449
— traction (Digest), 66
— traction in New York, 355, 366
— traction system, Waddell-Entz Co., 366
Accumulators, Alternating currents for charging, 93
— Apparatus for testing (Digest, Ref.), 213
— at the World's Fair (Digest, Ref.), 215
— Automatic switch for (Digest), 273
— Discussion of (Digest), 481
— Epstein (Digest), 416
— Evolution of gas in charging (Digest), 66, 466
— Guaranteeing (Digest), 85
— Heating of (Digest, Ref.), 319
— in central stations (Digest), 428
— in commercial work (J. Appleton), 356, 374
— in generating stations for electric lighting and regulating power, Mailloux on, 329, 340
— Internal resistance of (Digest), 449
— Lead dust (Digest), 416
— Management of, 93
— Preparing active material for (Digest), 44
— Porous lead for (Digest), 319
— Recent progress in (Digest), 381
— Revolution in (Digest), 466
— vs. coal (Digest), 428
Actino-electric phenomena (Digest, Ref.), 271
Actinometer, Electro-chemical (Digest), 84
Advertising letters, Electric (Digest), 319
Aerial lines (Digest, Ref.), 85
Air, Liquid (Digest), 464
Air pump, Rotary mercurial (F. Schulze-Berge), 218
— (See also Vacuum Pump.)
Alloy, new, discovered by electrolysis (Digest), 104
Alloys, Suitable, for standard resistances, Queen & Co., 483
Alternating cables, high potential. Apparent insulation resistance for (Digest), 481
Alternating current ammeter (Digest), 317
— apparatus, Experimental, 225
— arc lamps, 21
— arc, Projecting (Digest), 11
— arcs depending on the form of the curve (Digest), 347
— armatures, Self-induction of (Digest), 65
— conductors, Increase of drop in, 1
— curves, Analytical, method for determining (Digest), 317
— curves, mechanical analysis of, 151, 234
— Gaetcher (Digest, Ref.), 66
— Royal Columbian Electric Co., 104
Alternating current dynamo, Direct connected, Patin (Digest, Ref.), 235
— La Roche Electric Works, 399
— Wood, Fort Wayne Electric Co., 88
Alternating current dynamos, Kingdon, Ewing, Pyke, Harris and Balloni types (Digest), 43
Alternating current distribution (Digest, Ref.), 397, 416
— electrolysis, 456
— electrolysis, Theory of (Digest), 85
— equations (Digest), 346
— fields, Measurement of (Digest), 118, 135
— lighting station, Missouri Electric Light and Power Co., 44
— lines, Capacity in (Digest), 465
— measurement (Digest), 10
Alternating current motor, Dahl Electric Co., 164
— Deri and Blathy (Digest), 135
— Hutin & LeBlanc (Digest), 43, 427
— Joel (Digest), 11
— non-synchronous, Brown, Theory of (Digest), 103
— Ries Electric Specialty Co., 417
— Single-phase, 93, 98
— Starting (Digest), 347, 415
Alternating current motors (J. F. Kelly), 208
— Calculation of (E. Arnold), 444, 495
— Design of (E. Kolben), 284, 308
— Mascart on (Digest), 447
— Meston, Emerson Electric Manufacturing Co., 30
— non-synchronous, Calculation of working efficiency of (Digest), 380
— non-synchronous, Theoretical discussion of (Digest), 292
— Rotary fields, Theory of (Digest), 396, 415, 447, 498
— Single-phase, Brown, Boverie & Co., 58
— Theoretical discussion of (Digest), 347
Alternating current problem (W. D. Weaver), 94
Alternating current system, Relative cost of copper in, 283
— system, Single-phase vs. Two-phase (Ries & G. J. Scott), 426
— system, Two-phase (Digest), 397, 489
— wiring (W. D. Weaver), 246
— work, Condensers in (Digest), 9
Alternating currents, Continuous from (Digest, Ref.), 415
— Direct, 225
— Direct currents from (Digest), 234
— Direct transformation of, into continuous currents (Digest), 103, 118, 361
— electrostatic, Experiments with (Digest), 136
— for charging storage batteries, 93
— for standardizing (Digest), 464
— high tension, Cable ruptured by (Digest), 119
— Low frequency, 423
— Measurement of resistance with (Digest, Ref.), 118
— of electrostatic machines of high tension (Digest), 234
— Polyphased, 263, 499
— polyphased, Continuous currents from (Digest), 464
— Practical measurements of (Digest), 213, 234, 272
— Rectifying (Digest), 447
— Two-phase (Digest), 416
Alternating vs. continuous currents, 397
Alternator, A 5,000 h. p., 463
— Alioth (Digest Ref.), 427
— Cail-Heilner (Digest), 396
— Labor (Digest), 380
— therapeutic, Kennelly, Edison Manufacturing Co., 483
— without self-induction (Digest), 292
Alternators in parallel (Digest), 136, 361, 397, 448
— and series (Digest), 428
— Discussion of (Digest), 464
— Driving gear for (Digest), 236
Aluminium, Hardening, 360
— factory at Newhausen (Digest), 236
— -iodine portable testing set, Chloride of Silver Dry Cell Battery Co., 52
— iodine portable testing set, Queen & Co., 15
— plating (Digest), 236
— solders and electrothermic production of aluminium bronze (Digest, Ref.), 273
Amalgams, Formations of (Digest, Ref.), 466
American Bolt Co., trolley hangers, 484
American Electrical Works, Annual clambake of, 169, 216
American Electro-Therapeutic Association, Programme of Chicago meeting of, 190
American Institute of Electrical Engineers, Badge of, 2, 424
— branches, 207
— Committee on local meetings, 392
— Eightieth meeting of, 330
— Eighty-first meeting of, 408
— Headquarters of, at World's Fair, 6
— Local meeting of, 305, 407, 408
— Meeting of Chicago members of, 208
American Street Railway Association at Milwaukee, Transportation to, 301
— Twelfth annual meeting of, 305, 329, 333
Ammeter, Alternating current (Digest), 317
— Voltmeter and, Hartmann & Braun (Digest), 234
Ammeters and voltmeters, Iron in, 346
Amperian apparatus (Digest), 213
Applied science, 394
Arago's statue, Unveiling of, 22
Arc and incandescent lamps (Digest, Ref.), 235
— and incandescent lighting, Relative cost of (Digest), 235
— Continuous current, as standard of light (Digest), 480
— Continuous current, as a standard of light (Digest, Ref.), 498
— Counter E. M. F. of the electric, 93
— Diamond, boron and silicon in the (Digest), 362
— electric, Notes on, with some experiments on the arc under pressure (L. Duncan, A. J. Rowland and R. I. Todd), 101
— Maximum of (Digest Ref.), 447
Arcs, alternating current, Researches with (Digest), 293, 347
Arc lamp and base, Street, Hunter, 29
— carbons (Digest), 480
— Harp (Digest), 44
— Hartmann & Braun (Digest, Ref.) 118
— Inclined carbon (Digest), 118
— Koerting-Mathiesen (Digest, Ref.), 235, 293
— litigation, 323
— mast arm, J. J. Renehan, 435
— New, Brush Electric Co., 52
— Puteaux (Digest, Ref.), 427
— Simple (Digest, Ref.), 347
— Washing Electric Co., 418
Arc lamps, Alternating current, 21
— at different heights, Effects of (Digest, Ref.), 85
— at the World's Fair, 152, 211, 251
— Candle power of, 35, 207
— Friction brake or clutch regulators for (Digest, Ref.), 447
— Kennedy (Digest), 480
— Maximum efficiency of (Digest), 428
— maximum efficiency of (H. S. Carhart), 458
— on railway circuits, 88, 106
— Placing of (Digest), 235
— Scientific study of (Digest), 347, 397
— Seesawing of (G. Cutter), 433
— with constant watts, Maximum efficiency of (H. S. Carhart), 216
— without shadows (F. D. Winkley), 474
Arc, Light and heat of (Digest), 293
— New incandescent (L. B. Marks), 199
Arc light carbons (Digest), 381
— dynamo, Phoenix (Digest, Ref.), 347
— standard (Digest), 118
— switchboard, W. S. Hill Electric Co., 401
Arc lights, Illumination from (Digest), 44
— Closed coil armatures for (Digest), 416
— dynamos (Digest), 214, 427
— in London (Digest), 480
Arc lighting (Digest), 11, 85, 118
Arc vs. gas incandescent lights (Digest), 11, 103
Armature Bell Co., magneto bell system, 368
Armature teeth, Dimensions of (Digest), 234
Armatures, Balancing (Digest), 293
— Heating of (Digest), 118
— Self-exciting, and compensators (Digest), 318, 347
Aromatic nitro-compounds (Digest Ref.), 397
Arsenic, Electrical method of testing for (Digest), 136
Ashley Engineering Co., low water alarm, 369
As others see us, 463
Association of Edison Illuminating Companies, Meeting of, 128
— Programme of Chicago meeting, 117
Atlantic ocean, Electric lights on (Digest), 11
Atmosphere, Potential of, at various heights, 213
Auto-conduction (Digest), 104, 119
Automatic Fire Alarm Co., fire alarm apparatus, 418
Automatic Switch Co., new method for automatically starting and protecting motors, 467
Averages and their fallacy, 1
Ayrton, W. E., Portrait and biographical sketch of, 148

B

Badge, That, and incidentally some suggestions in regard to the same (G. Franklin), 2
Ball & Wood Co., direct connected engine and dynamo, 88
Ball Engine Co., vertical cross compound engine, 400
Balloons, Experiments on electrification of air from (Digest Ref.), 447
Balloons, Explosions of (Digest), 29
Baptism of fire, Its, 225
Barium and strontium, binoxides, Electrical production of (Digest), 428
Bates & Co., D. L., Star fan motor, 53
Battery, primary, Cadmium mercury standard cell (Digest), 361
— Cadmium-sal-ammoniac cell (Digest, Ref.), 44
— Clark cell (Digest), 84, 213, 234
— Compound for, Bryan, Marsh & Co., 106
— copper oxide, 416
— Dry cell, Germain (Digest), 294
— Dry cell, Hellesen (Digest, Ref.), 319
— Excelsior (Digest), 294
— for electric lighting (Digest), 273
— Hewett Voltaic Electric Co., 16
— Invention of (Digest, Ref.), 136
— Improved Laclede, Laclede Carbon & Electric Co., 434
— Kolon, Bryan, Marsh & Co., 15
— Kolon, Curves of, 51
— Law Battery Co., 106
— Leclanche, Improvement in (Digest), 381
— Leclanche, Researches with (Digest, Ref.), 13
— Lelande & Chaperon (Digest), 449
— Nitrate of soda (Digest), 362
— One-volt standard cell, 67
— One-volt standard cell (Digest), 135
— "Perfect" Galvano Faradic Manufacturing Co., 105
Batteries, primary, Instruments for testing (Digest, 65
— in theory and practice (Digest, Ref.), 362, 381, 397, 416
— Researches with Leclanche and other similar cells (Digest), 136, 319
— Wet and dry (Digest), 13
— with fused electrolyte (Digest, Ref.), 273
Beacon Vacuum Pump & Electrical Co., new Beacon lamp, 165
Belknap Motor Co., magnetic electric drill, 122
Bell, Edwards & Co., 88
— Short circuit alarm, A. L. Bogart, 72
Bell system, Magneto, Armature Bell Co., 368
Relis, Clockwork, 416
Bender & Co., O. N. cable supporter, 16
Bernard & Co., E. G., commutator preparation, 401
Bidwell, Benson, and his electrical inventions (C. Freeman), 25
Blaisdell & Co., P., upright drill, 350
Bleaching by electricity (Digest), 236
Bliss & Co., E. W., double crank press, 53
— long stroke power press, 435
Bogart, A. L., gravity drop cut-off, 106
— Short circuit alarm bell, 72
Boiler, Climax, Clonbrock Steam Boiler Works, 16
Boiler testing (Digest Ref.), 215
Bolgiana Water Motor Co. water motor, 388
Bolometer, Crova (Digest, Ref.), 234
